# **SKILLS**

Javascript(ES6+) React Redux Webpack Babel AngularJS REST HTML5 CSS3

Node.js Express.js Massive.js Autho Socket.io PostgreSQL GraphQL Git/Github

## **PROJECTS**

2017

#### GO.10

Personally Developed - React/Redux/HTML5/CSS3

- Designed website to wrap and utilize Google's QPX Express Airfare API
- Built site to be fully responsive and support both desktop and mobile use.
- Single page React app with no back-end server.

2017

#### **UNSPLASH.COM - CLONE**

Personally Developed - React/Redux/Node.js/SQL/Autho

- Designed and developed React app to clone unsplash.com home UI.
- App built fully responsively with Autho authentication and a SQL database.
- Incorporated live API to provide constantly updating Unsplash content.

2017

# **TOURNAMENT KING**

Front-End Design and Dataflow - React/Redux/Node.js/Socket.io/SQL/Autho

- Designed and engineered dynamically rendering tournament bracket tree.
- Incorporated live-updating functionality via sockets for real-time experience.
- · Worked on front/back end implementation of authentication and websockets.
